

2016 Follow-up report

# STINSON neighbourhood

Hamilton Neighbourhoods Study

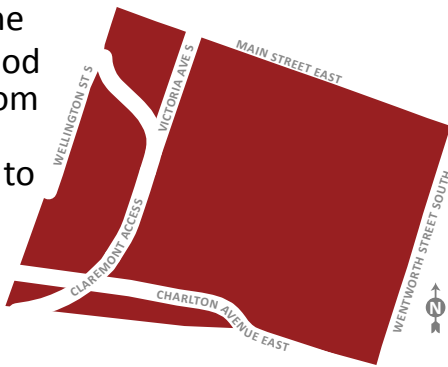

As part of a McMaster research study, we did surveys with Beasley, Keith, McQuesten, Rolston, Stinson and Stipley Here are some highlights. You can also view the full report at: [crunch.mcmaster.ca/hnstudy](http://crunch.mcmaster.ca/hnstudy).

## What is the impact of the Neighbourhood Action Strategy?

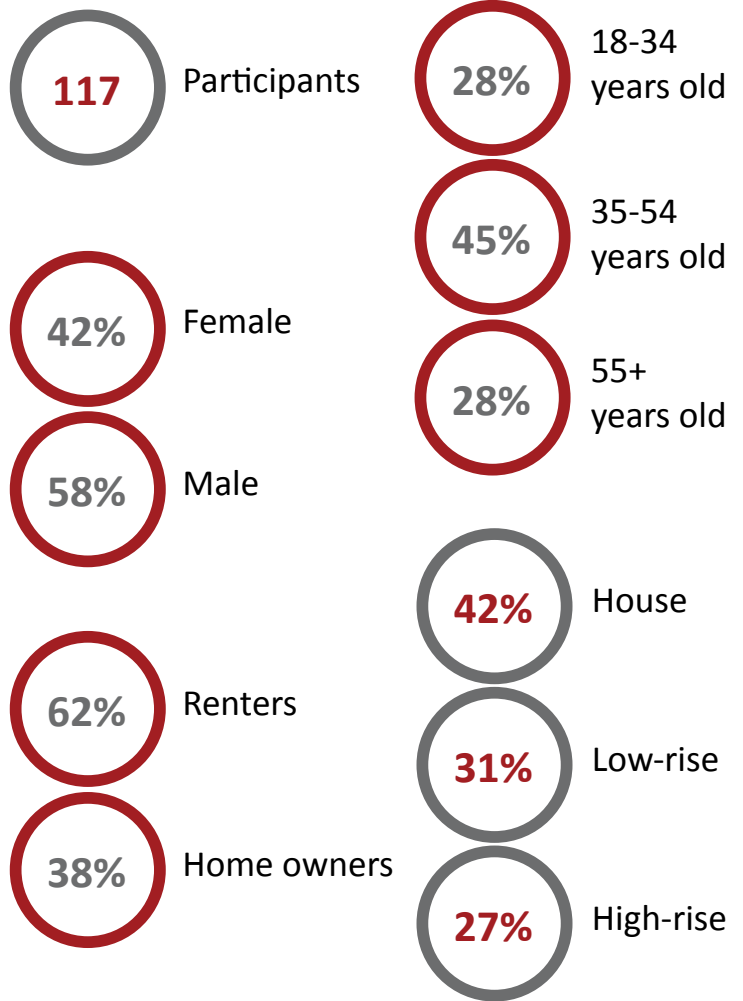

**That is the question the Hamilton Neighbourhoods Study asks.**

This study is a survey of residents in Stinson. The survey includes questions on: housing & physical environment, community, safety & security, civic engagement, health, employment, and education & demographics.

**Stinson** is the neighbourhood stretching from Wellington Street South to Wentworth Street South and the mountain to Main St East.

## Who we talked to in Stinson:

KEEP IN TOUCH!

## What changed for participants?

Below shows the changes in answers to the same survey questions, two years apart. A change is categorized as an increase or decrease of 5% or more.

	Improved	No change	Got worse
Satisfaction with home and neighbourhood	X		
Neighbourhood as a place to raise a child	X		
Feels safe outside at night	X		
Feels safe outside during the day and in home at night		X	
Children are safe when walking to and from school			X
Sense of pride in the neighbourhood	X		
People in neighbourhood are friendly		X	

## Neighbourhood Concerns

We asked participants to indicate if certain issues were a problem in their neighbourhood. The table below shows the changes in issues identified as 'a serious problem' in the neighbourhood.

	Improved	No change	Got worse
Drug dealing and/or use	X		
Sex work	X		
Vandalism, graffiti	X		
Litter in streets		X	
Poor air quality	X		
Traffic and road safety		X	
Lack of entertainment		X	
Lack of places to shop		X	

**Please note**, this phase of the study is over. There may be future phases. Thank you to our research participants for their time and contributions.
